

1. Select Shade Width - Measure your Awning's existing Fabric width from edge to edge

(Note: The width of the VistaShade cannot be wider than your fabric.)

<input type="checkbox"/> 8'	<input type="checkbox"/> 10'	<input type="checkbox"/> 13'
<input type="checkbox"/> 15'	<input type="checkbox"/> 17'	<input type="checkbox"/> 19'

2. Select Drop Height - Overall Height of Entire VistaShade (Insert & 6' Body) - See images and example for Insert/Body Sizes

<input type="checkbox"/> 6'	<input type="checkbox"/> 7'	<input type="checkbox"/> 8'
<input type="checkbox"/> 9'	<input type="checkbox"/> 10'	<input type="checkbox"/> 11'

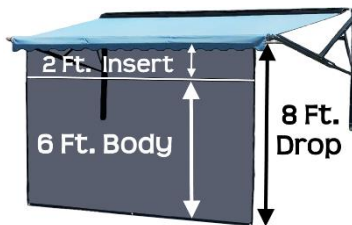

Fully extend your awning. Measure from the bottom of the roller tube to the ground.

The body portion (below the zipper) of the Vista Shade, will always be 6' tall. The insert will be taller depending on the height you choose. If you order an 8' drop the insert will be 2' plus the 6' body. If you order a 9' drop the insert will be 3' plus the 6' body. Please make sure you can comfortably reach 6' below the roller tube. In some cases you may want to order a foot taller shade and spike it down at an angle provide a larger shaded area under your awning.

Zipper location

- 6' Drop = Zipper at roller
- 7' Drop = 1' from roller
- 8' Drop = 2' from roller
- 9' Drop = 3' from roller
- 10' Drop = 4' from roller
- 11' Drop = 5' from roller

3. Select Color of VistaShade

VistaShade RV Awning Shade is the only awning shade made specifically for 12V RV awnings. It's open weave fabric cuts approximately 85% of the sunlight to help keep you cool and comfortable.

ORDER A MATCHING SIDE SHADE

Vista Side Shade

The only side shade that automatically releases from the awning when retracting.
